Film Industry (World) - AI Employees Register

The film industry across the world - AI Employees register

Owner's ask (4 Nov 2026): *"NOW A FILM INDUSTRY AI EMPLOYEE ACROSS WORLD"*. Eleventh in the series. "Film" here means the whole moving-image business: feature films, series, shorts, documentaries, animation, advertising films, music videos, streaming, television, regional and diaspora cinema, festivals and the audience side. It is a global register: a market map first, then the same craft and business functions with the local rule that changes them.

12 fields, 122 candidate AI Employees.

How honest this is

- No new web research for this file and no sourced job census in the repo: it is **domain knowledge, not sourced**. Market names, guild rules, laws and ratings are from memory and **must be re-checked on primary text** before any desk is built: Copyright and neighbouring rights (Berne; India Copyright Act incl. s.17/18/19 on assignment and s.57 moral rights; US Copyright Act; EU DSM Directive), CBFC certification (India, Cinematograph Act), MPA ratings and BBFC/FSK etc., state film-commission and tax-incentive rules, SAG-AFTRA / WGA / DGA agreements (the 2023 settlements carry AI terms: consent and pay for digital replicas, limits on AI-written "literary material" credit), UK/EU/Indian rules on deepfakes and personality rights, the EU AI Act's transparency duty for synthetic media, platform content policies, GDPR/DPDP for audience data, anti-piracy law and the Cinematograph (Amendment) piracy provisions.
- **Already in Hoola** (extend, do not rebuild): Create Studio (Image, Video with Director/storyboard and price cards, Music via Lyria, Voice, Dubbing, Editor via Video Editor API, Script writer, AI casting, Brand kit, My creations), HOOLA FRAMES (free HyperFrames MP4), Avatar Films (talking head, product film, 9:16 reel with Chatterbox voice and word-aligned captions), `videoedit/captions`, HOOLA PRINT (designed PDFs: scripts, call sheets, pitch decks), Game Crew (49 roles, board tasks), Kalam (writing), Interactive Model Lab (voice, MuseTalk face), the website builder (film sites), Khata (producer dues), WhatsApp opt-in, Maps (location scouting distances), research engine, Data Desk + pylab (box-office/budget math). Roles with * exist in some form.

The world map (so a desk can carry a country switch)

Region	Shape of the business	What changes for an AI Employee
USA / Hollywood	studio + guild system, streamers, residuals	guild AI clauses, chain-of-title, E&O insurance, MPA rating, union rules
India (Hindi, Telugu, Tamil, Malayalam, Kannada, Bengali, Marathi, Bhojpuri, Punjabi...)	industry per language, theatrical + OTT + satellite + music rights, single-screen + multiplex	CBFC, state subsidies, music rights (IPRS), producers' councils, personality rights, piracy
China / HK / Taiwan	state approval + co-production quotas	licence ("dragon seal"), censorship, platform control
South Korea / Japan	strong IP-to-screen pipelines (webtoon, manga, anime)	production committees, anime pipelines, K-content exports
Europe / UK	public funding + co-productions + festivals	funding bodies, CNC/BFI rules, tax credits, EU quotas, GDPR

Region	Shape of the business	What changes for an AI Employee
Nigeria (Nollywood) / Africa	fast low-budget production, direct-to-video/streaming	piracy, distribution gaps, mobile-first audiences
MENA / Turkey / Latin America	TV-drama exports, state incentives, telenovelas	broadcaster-led formats, language dubbing
Global streaming	commissioning, data-led, localisation at scale	dubbing/subtitling, delivery specs, rights windows

The findings that shape every film desk

1. The creative and legal signatures are human; software prepares, tests and tracks

Ladder as before: **A** admin/prepare, **B** assist (draft / check / estimate for a named person), **C** reserved. Reserved here: creative decisions (script acceptance, casting, edit, final mix, grade), the director's cut, signing talent and crew contracts, chain-of-title sign-off, rating/censor submission as the producer, music licence grants, payment of crew/talent, insurance and completion-bond decisions, and **any use of a real person's face or voice** without that person's recorded consent (guild and law now require it). The AI proposes, schedules, budgets, drafts, finds problems and produces assets; people decide.

2. Film is project-based: the money is in budgeting, scheduling and rights

A film is a one-off company with a budget, a shooting schedule, hundreds of daily decisions, call sheets, permits, location agreements, music clearances, deliverables to dozens of buyers, and a rights chain that decides whether anybody can release it. Scheduling (day-out-of-days, shoot order, weather cover), budgeting (above/below the line, contingency), cost reports and rights/clearance tracking are exactly what a logged, rule-based AI Employee does best.

3. Generative media is the new edge and the new risk

Hoola can already make pictures, clips, music, voices, dubbed audio and talking avatars. In film this lets small makers do previs, animatics, storyboards, pitch trailers, VFX plates, ADR, dubbing, subtitles and posters at low cost. Rules from the guilds and the law: consent and compensation for digital replicas, no deceptive deepfakes, label synthetic media, license-clean training and source material, human authorship for copyright claims in many jurisdictions. Every generative employee below carries the Hoola approval card and a consent register.

4. Distribution and marketing are 40-60% of the lifecycle

Festivals, sales agents, platform deliverables (QC specs, captions, audio stems), release calendars, trailer and poster tests, social campaigns and audience data. Much of it is checklist-and-spec work: tier A.

THE REGISTER (AI Employee - what it does - tier - the human who decides)

1. Development: idea, story & script (Hoola Kalam / Script writer extend)

1. Idea Incubator - logline variants, genre/market comps, premise stress tests (originality search among public synopses) - A - writer / producer
2. Story Analyst (Script Reader) - coverage reports: premise, structure, character arcs, tone, market fit, rating risks; shows examples for each note - B - development executive

3. Screenwriter's Assistant - outlines, beat sheets, scene cards, dialogue options, locale-correct idiom (Hinglish, Tamil, Korean, etc.); **author keeps authorship; AI-use disclosed per guild rules** - B - writer
4. Script Doctor Checker - continuity, timeline, character-knowledge, plant-and-payoff, page-count, runtime estimate, budget red flags - B - writer / script editor
5. Format & Screenplay Layout Assistant - industry formats (US, UK, Indian, anime scripts), revisions colours, scene numbering locks - A - script coordinator
6. Series Bible Keeper - characters, timeline, worldbuilding, rules, episode tracker, continuity lookups - A - showrunner
7. Adaptation Rights Scout (book / webtoon / manga / play / news story: rights holder, status, option terms) - A - producer / lawyer
8. Translation & Localisation Writer (script and dialogue to another language, glossary, cultural notes; **adaptation writer approves**) - B - writer
9. Pitch Deck & Lookbook Builder (HOOLA PRINT: logline, synopsis, mood images, comps, budget band, team) - A - producer
10. Treatment & Synopsis Writer (1-page, 5-page, series outlines) - B - writer
11. Documentary Research Assistant (archives, interviewees list, fact files with sources, clearance map) - B - researcher
12. Sensitivity & Cultural Consultant Assistant (representation checks, language, religion/community concerns, rating-risk flags; **consultant decides**) - B - sensitivity reader

2. Producing, finance & business affairs

13. Line Producer's Budget Builder - top-sheet and detailed budget from script breakdown, local rate cards, tax incentives, contingency (pylab) - B - line producer
14. Film Finance Planner - equity/debt/pre-sales/gap, cash-flow, recoupment waterfall, soft-money (tax credits, subsidies, co-pro funds) - B - producer / finance
15. Incentive & Tax-credit Finder (state/national film commissions, co-production treaties, eligibility checklists, deadlines) - A - producer
16. Production Accountant's Assistant - purchase orders, petty cash, payroll feed, cost reports (budget vs committed vs actual), invoice matching - A - production accountant
17. Contract Drafter (crew, cast, location, vendor, music; clause library by jurisdiction; **lawyer reviews, parties sign**) - B - production lawyer
18. Chain-of-title & Clearance Tracker (script, underlying rights, music, footage, trademarks; E&O checklist) - A/B - clearance lawyer
19. Insurance & Completion-bond Coordinator (E&O, production package, cast insurance, bond requirements) - A - producer
20. Co-production Coordinator (treaty rules, minimum share, cultural tests, document packages) - B - producer + lawyer
21. Investor Relations & Reporting Assistant (updates, waterfall statements, royalty/profit participation calculations) - A - producer
22. Rights Catalogue & Territory Windows Manager (territory, media, term, exclusivity, holdbacks, reversion dates) - A - sales / business affairs
23. Royalty & Residual Calculator (musicians, writers, actors per union tables; **payment by accountant**) - B - accountant

3. Pre-production: breakdown, scheduling & logistics

24. Script Breakdown Assistant - characters, locations, props, wardrobe, vehicles, stunts, VFX, day/night per scene - A - 1st AD
25. Shooting Schedule Optimiser - stripboard by location, cast availability, daylight, travel, turnaround rules, weather cover; **AD finalises** - B - 1st AD
26. Day-out-of-days & Cast Availability Tracker - A - production coordinator
27. Call-sheet Producer - daily call sheet from schedule: times, locations, weather, maps, contacts, safety notes, multilingual (HOOLA PRINT + WhatsApp) - A - 2nd AD
28. Location Scout Assistant - candidate sites from the user's lists and public sources, distance/time (Maps), permit rules, noise/sun path notes, photo database - A - location manager
29. Permit & Clearance Tracker (city permits, police, forest/ASI sites, drone, road closures, airspace; per-country) - A - location manager
30. Casting Director's Assistant (breakdowns, auditions scheduling, self-tape intake, shortlist grids; AI casting concepts for previs only; **casting decision human**) - B - casting director
31. Crew Hiring & Roster Assistant (availability, rates, union/guild rules, travel/accommodation) - A - production manager
32. Travel, Accommodation & Per-diem Manager (bookings on tap, itineraries, expense rules) - A - production coordinator
33. Production Safety Planner (risk assessments, stunt/fire/water/animal/child-actor rules, medic and insurance, intimacy-coordinator scheduling) - B - safety officer / 1st AD
34. Previs & Animatic Generator (storyboard frames, camera moves, rough timing using Hoola image/video engines; clearly marked "previs") - B - director
35. Concept Art & Production Design Assistant (look options, set mood boards, colour palettes, prop lists; designer approves) - B - production designer
36. Costume Planner (character looks, fittings schedule, continuity photos, rental/purchase tracker) - A - costume designer
37. Props & Set Dressing Tracker (inventory, sourcing, returns, continuity) - A - props master
38. Stunt & VFX Planning Assistant (shot lists, plate requirements, safety plans; **supervisors approve**) - B - stunt coordinator / VFX supervisor

4. Production (shoot): set operations & data

39. Continuity & Script Supervisor's Assistant (take log, notes, continuity photos, script timings) - A - script supervisor
40. Slate & Clip Logger (voice/vision logging of scene/take, circle takes, camera roll data) - A - DIT / script supervisor
41. DIT & Dailies Assistant (offload verification, checksums, backup copies, LUT application, dailies encoding, delivery to editors) - A - DIT
42. Camera Report & Metadata Manager (lens, ISO, shutter, LUT, camera IDs; EDL-ready metadata) - A - DIT
43. Production Sound Log Assistant (timecodes, sound reports, wild lines, room tone) - A - sound mixer
44. Set Daily Report (progress report: scenes completed, pages shot, overages, injuries, delays, weather, equipment problems) - A - 2nd AD / UPM
45. Unit Publicity & Stills Organiser (stills selection tracking, embargo rules, press kit assets) - A - unit publicist
46. Safety & Incident Reporter (near-miss log, incident forms, insurance claim data; **investigation human**) - B - safety officer
47. Background Artist (Extras) Coordinator (bookings, payments, vouchers, call times) - A - extras casting
48. Animal & Child-performer Compliance Tracker (licences, hours, tutors, welfare) - A - 2nd AD

49. Virtual-production Technical Assistant (LED-wall content scheduling, asset load lists, colour consistency; **VP supervisor drives**) - B - VP supervisor

5. Post-production: edit, VFX, sound, colour, delivery

50. Assistant Editor (organise bins, sync audio, sub-clips, selects by script, versioning, change lists) - A - editor
51. Editorial Assistant AI (rough assembly proposals from script/takes, alternative cut suggestions with reasons; **editor edits**) - B - editor
52. Transcription & Subtitling Engine (verbatim, translated, burned-in and sidecar captions, timing QC; Hoola captions pipeline) - A/B - subtitle editor
53. Dubbing Studio Director (voice-cast casting, ADR cue sheets, lip-sync alignment, multilingual dubbing; consent register for any cloned voice) - B - dubbing director
54. VFX Producer's Assistant (shot database, vendor bids, turnover packages, review notes, version tracking) - A - VFX producer
55. Rotoscoping & Cleanup Assistant (AI-assisted mattes, wire removal; artist QC) - B - compositor
56. Previs-to-Final Consistency Checker (continuity across shots, colour matching) - B - VFX supervisor
57. Sound Editorial Assistant (dialogue edit prep, sound-effects library search, loop-group lists, cue sheets) - A - supervising sound editor
58. Music Supervisor's Assistant (temp music, clearance quotes, cue sheets for PROs, licence tracker; clearance-clean suggestions only) - A/B - music supervisor
59. Composer's Sketchpad (themes and demos with Hoola music engine for temp and brainstorming; label as AI; final score by composer) - B - composer
60. Colour Pipeline Assistant (LUT management, ACES checks, version conforms, HDR/SDR trim lists; colourist grades) - A - colourist / DIT
61. Final-mix & Loudness QC (stems, dialogue intelligibility, loudness targets per platform, Atmos metadata) - B - re-recording mixer
62. Conform & Finishing Assistant (EDL/XML/AAF reconciliation, frame-rate/aspect/versioning, burn-ins) - A - finishing editor
63. QC Auditor (technical QC to platform specs: black frames, flashes, audio phase, captions sync, loudness; reports with timecodes) - A - QC supervisor
64. Deliverables Manager (platform delivery matrix: video masters, trailers, stills, M&E, closed captions, metadata, artwork; checklist and due dates) - A - post supervisor
65. Archive & Asset Manager (LTO/cloud storage, naming conventions, retention, restoration requests) - A - archivist

6. Animation, VFX houses & games-adjacent pipelines (Game Crew overlap)

66. Animation Producer's Tracker (asset status, shot progress, render queues, artist loads) - A - production manager
67. Storyboard & Layout Artist's Assistant (thumbnail boards, animatic timing) - B - storyboard artist
68. Rigging & Asset QA Checker (naming, polycounts, texture sizes, UVs, pipeline rules) - A - pipeline TD
69. Render-farm Optimiser (job priorities, cost, failure retries; pylab) - A - pipeline TD
70. Anime Production Scheduler (cut-by-cut tracking, key/inbetween assignments, outsourcing studios) - A - production desk
71. Motion Capture Session Assistant (marker maps, take logs, cleanup queue) - A - mocap supervisor
72. Game-trailer & Cinematics Producer (Hoola Game Crew + film pipeline) - B - producer

7. Marketing, publicity & audience

73. Marketing Strategist (positioning, comps, audience segments, release windows, budget split; ranges not forecasts) - B - marketing head
74. Trailer & Teaser Editor's Assistant (cut options from approved footage with beat maps; **final cut human**) - B - trailer editor
75. Poster & Key-art Designer (concepts in the film's style; likeness rights check; **designer approves**) - B - art director
76. Social Media Manager (calendar, caption sets in languages, clips and reels, community replies; approvals before posting; Hoola social desk) - B - publicity head
77. Influencer & Press Outreach Assistant (lists, media kits, screening invites, embargo tracking; no spam, opt-in rules) - A - PR
78. Premiere & Event Planner (guest lists, seating, run of show, security, vendor schedule) - A - events
79. Audience Insights Analyst (surveys, social listening topics, search interest, test-screening cards; pylab; privacy-safe) - A - marketing
80. Review Aggregator & Reputation Monitor (critic/audience scores, themes, alerts) - A - publicist
81. Localisation Marketing Adapter (title, tagline, poster, trailer cultural adaptation per territory) - B - international marketing
82. Awards Campaign Planner (eligibility rules, submission deadlines, screeners, consideration campaigns within academy/guild/festival rules; **submission by producer**) - B - awards consultant

8. Sales, distribution & exhibition

83. Sales Agent's Assistant (market-screening schedule, buyer CRM, offers log, territory availability, slate decks) - A - sales agent
84. Festival Strategy Planner (submission calendar, fees, premiere requirements, fit by programme; waivers) - A - festival producer
85. Festival Submission Packager (forms, screeners, stills, bios, DCPs/links, subtitles; tracking decisions) - A - festival coordinator
86. Distribution Windows Planner (theatrical, premium VOD, SVOD, AVOD, TV, home-video; holdbacks) - B - distribution head
87. Platform Pitch Preparer (stream-ready pitches, data comps, delivery plan) - B - producer / sales
88. Theatre Booking & Screen Allocation Assistant (exhibitor deals, show timings, regional demand, Maps) - B - distributor
89. Box-office Reporter & Waterfall Calculator (daily collection reports from reliable sources, producer/distributor share by contract) - A - distributor accounts
90. Digital Cinema Package (DCP) & KDM Manager (mastering checks, key delivery messages, theatre compatibility lists) - A/B - DCP technician
91. Censor/Rating Submission Assistant (CBFC forms and cut lists, MPA/BBFC packet, content advisory notes, cuts tracking; **submission by producer; certificate is the board's**) - B - producer
92. Piracy Monitoring Assistant (takedown notices drafted to platforms, evidence packets, watermark/forensic log; **filing by rights holder/legal**) - B - anti-piracy counsel
93. Subtitle & Dub Localization Project Manager (languages, vendors, QA loops, delivery) - A - localisation manager
94. Home-video / Merchandise / Licensing Manager (product categories, licensee approvals, royalty statements) - A - licensing head

9. Audience, education & community

95. Personal Movie Guide (taste-based picks, trailers, where to watch legally, family-friendly flags, language/subtitle options) - A - viewer
96. Film Club & Discussion Moderator (themes, trivia, questions, spoiler management) - A - film club host
97. Film School Tutor (screenwriting, cinematography, editing exercises with feedback rubrics; Guru Sahayak) - A - faculty
98. Film History & Studies Assistant (timelines, movements, director filmographies, sources) - A - student
99. Short-film Coach (idea to 5-min film using Hoola engines with Rs-budget plans; rights checks) - B - creator
100. Accessibility Services (audio description scripts, closed captions, sign-language overlay, sensory-friendly screening notes; **describer approves**) - B - accessibility lead
101. Archive & Restoration Assistant (damage reports, scan QC, colour restoration proposals, catalogue metadata) - B - film archive

10. Talent, guilds & labour

102. Talent Manager's Assistant (talent calendar, offers, scripts reading queue, brand deals, invoices; client-confidential) - A - talent manager
103. Actor's Career Companion (audition self-tape prompts, resume, showreel assembly, submission tracker; consent for synthetic likeness register) - A - actor
104. Writer's Rights Assistant (credits rules, chain of authorship records, AI-use disclosures, pay tracker) - A - writer
105. Crew Welfare & Hours Monitor (turnaround, 12-hour days, meal penalties, harassment/abuse channel to a human) - B - union rep / production
106. Guild Rule Navigator (contract minimums, benefits, AI clause summaries; refers to the guild/lawyer) - B - guild member
107. Digital-replica Consent Registry (who consented to what face/voice use, scope, term, compensation, revocation; blocks use outside scope) - A - talent / legal
108. Intimacy & Safe-set Scheduler (coordinator booking, closed-set protocols, consent notes) - A - 1st AD + coordinator

11. Ethics, compliance & platform trust

109. Synthetic-media Labeler (provenance tags, C2PA-style metadata, on-screen/EOF disclosures, platform rules) - A - post supervisor
110. Likeness & Deepfake Risk Reviewer (checks every generated face/voice against the consent registry and public-figure rules; **blocks unconsented use**) - B - legal
111. Copyright-clean Training & Asset Auditor (source/licence trail for generative assets used; sample similarity checks) - B - legal
112. Content Policy Reviewer (violence, nudity, drugs, religion, politics per target platform and territory) - B - compliance
113. Data-protection Officer's Assistant (audience data, crew data, cast health data, casting-call personal data under DPDP/GDPR) - B - DPO
114. Anti-piracy Leak Tracker (screener watermark mapping, leak source triage; **action by security/legal**) - B - security head
115. Cybersecurity Assistant for Productions (access logs, dailies exposure, phishing awareness, NDAs) - B - IT security

12. Regional & global specialties

116. Bollywood/Regional Music-Rights Assistant (IPRS/PPL-type collecting societies, lyricist/composer splits, sync vs master, satellite/OTT clauses) - B - music supervisor + lawyer
117. Co-pro Festival Market Navigator (Cannes Marché, Berlin EFM, Film Bazaar, Busan, TIFF etc.: calendars, projects markets, funds) - A - producer
118. Hollywood Studio Notes Tracker (note intake from executives, change impacts, version history) - A - producer
119. Chinese/International Co-production Compliance Checker (quotas, content rules, approvals; **counsel decides**) - B - counsel
120. Nollywood-style Rapid Production Planner (low-budget schedules, mobile-first distribution, piracy-resilient release) - A/B - producer
121. Anime & Manga IP Pipeline Assistant (committee agreements, merchandise tie-ins, localisation timelines) - A - IP manager
122. Documentary Impact & Outreach Campaign Planner (screening tours, NGO partners, audience feedback) - A - impact producer

NEVER an AI Employee (tier C)

Sign a contract or release as a person; decide a casting, final cut, grade or mix; use a real person's face/voice/body without a recorded consent and scope; present synthetic footage as real or a fake endorsement; fabricate a crew credit or statement; accept a rating/censor certificate or submit as the producer without them; license music or grant rights; pay crew/talent/vendors on its own; file legal takedowns or lawsuits in a rights holder's name; scrape or republish paywalled/pirated material; train on or reproduce a copyrighted work beyond fair use; leak or share unreleased footage; make creative decisions that take credit from writers, directors or performers.

Suggested build order

1. **Wave 1 - pre-production and producer admin (tier A, instant value, builds on Hoola Kalam + Studio + Khata)**: 9, 13, 16, 24, 25, 27, 28, 29, 44, 50, 52, 64, 76, 77, 84, 85, 89, 107.
2. **Wave 2 - creative assist with a named human**: 2-4, 6, 10, 14, 30, 34, 51, 53, 58, 63, 73-75, 91, 93, 100, 109.
3. **Wave 3 - high-risk or specialist (rights, consent, likeness, finance, rating)**: 17, 18, 20, 22, 23, 82, 83, 86, 92, 110-112, 116, 119. Fit to Hoola: department **"Film & Media"**; start with the user-facing makers' tools already live in Create Studio and Avatar Films, then add the producer/business layer (budget, schedule, rights, delivery) - this is where Hoola's records-and-checks strength is and where competing AI video tools are weakest. Reuse Maps (28), HOOLA PRINT (9, 27), Khata (16, 23), WhatsApp opt-in (27, 77), captions/dubbing (52, 53, 93), HyperFrames (34, 74, 75), Data Desk + pylab (13, 14, 79, 89), research engine (7, 11, 98), approval cards for every sign/pay/submit step, a **digital-replica consent registry** as a shared foundation for every generative employee (107, 110). **Best first pilot: the independent / regional filmmaker and the ad-film or YouTube production house** (budget + schedule + call sheets + rights + deliverables + dubbing/subtitles) - plus the **short-film coach** (99) for new creators. Big studios want guild-clean, security-audited tooling; small producers want hours back.

Open questions for the owner

- Which side first: **makers** (writers, directors, small producers), **producer/business layer** (budget, schedule, rights), **post and delivery** (dubbing, subtitles, QC), or **audience** (movie guide, film club)?
- Which cinema first: Hindi + regional Indian film (natural base), or global/English? Rights, rating and incentive packs are per country and per language, so each is a maintained data pack.

- Face and voice: confirm Hoola's consent-registry rule (no real-person likeness or cloned voice without recorded consent and scope, labels on every synthetic piece) before any generative film employee ships.
- Music and source rights: the register assumes clearance-tracking only, never ripping or reproducing copyrighted tracks.
- "GO per field" turns any field into a sourced report with guild agreements, CBFC and local laws checked on primary text.
